

**INSTALL GUIDE**

## DOWNLOADING FROM YOUR EMAIL

*Note: This is a Procreate 5 brushset, so you must be on at least Procreate 5 to use + install this set*

- 01** Open your email with the download link and tap it.
- 02** All email services are slightly different, but you *\*should\** be directed to a screen that looks something like this:

- 03** Tap 'Open in Procreate'

- 04** Since this is just a .brushset, it should now be instantly installed in Procreate. You'll see a category named 'Watercolor Illustration' in your brush catalog that includes all of the brushes.

## DOWNLOADING USING CHROME

*These instructions are if you download straight from the screen you land on after purchase*

- 01** Hit the download link using the Chrome browser  
*(Safari can be unreliable and has changed their download process often)*

- 02** Hit download at the bottom of the screen

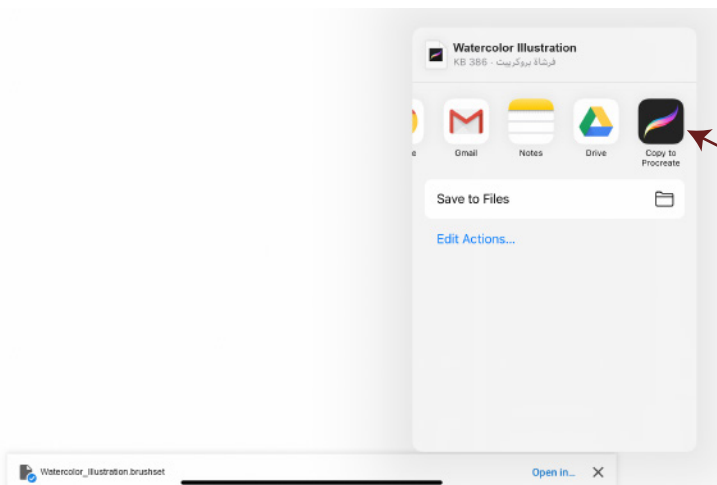

Watercolor\_Illustration.brushset Download

- 03** After it downloads, it'll change to say 'Open in..' tap that

Watercolor\_Illustration.brushset Open in...

- 04** Depending on how many apps you have, you may need to slide this to the left to find 'Copy in Procreate'. Once you do, tap it and it will install automatically.
